Author's name

Title

A Ph.D. Thesis presented to the Center of Informatics of Federal University of Pernambuco in partial fulfillment of the requirements for the degree of Philosophy Doctor in Computer Science.

Concentration Area: Computational Intelligence

Advisor: Professor's name

Recife
2019

FICHA

BANCA

I dedicate this dissertation to all my family.

ACKNOWLEDGEMENTS

ABSTRACT

Abstract

Keywords: X. Y. Z.

RESUMO

Resumo.

Palavras-chave: X. Y. Z.

INTRODUCTION

Self-Organizing Map (SOM) ([Kohonen, 1990](#)).

Figure 1: DenseNet architecture

$$CE(C, C') = \frac{|U| - D_{max}}{|U|}, \quad (1.1)$$

Table 1: Specifications of the Deep Learning Benchmark Image Datasets

Datasets	Resolution	Channels	Classes
Canadian Institute For Advanced Research (CIFAR10)	32 x 32	3	10
Street View House Numbers (SVHN)	32 x 32	3	10
MNIST	28 x 28	1	10
FashionMNIST	28 x 28	1	10

Algorithm 1: Algorithm

```

1 Initialize parameters;
2 for  $epoch \leftarrow 0$  to  $epoch_{max}$  do
3   Choose a random input pattern  $\mathbf{x}$ ;
4   if condition then
5     Run X;
6   else
7     Run Y;
```
